

Strimech Pro-HD Work Platform

New design for 2016

Our new design 2 person and 3 person work platforms are uniquely designed to take either handler brackets or mounted from the forks, the bolt on facility offers greater versatility when stocking the platform. The platform provides a safe environment for a wide range of maintenance and inspection applications, it comes with a safety entrance lift up bar and safety harness rings. Also available with this product is the option for a tool tray.

Features

- Fork section max 150mm x 50mm at 525 centres
- Kicker plate all around
- Self-draining none slip floors
- Hooks for safety harness
