

## Truck features:

- BT Lifters H-series allow ergonomic handling of goods. The ergonomical working height, fully adjustable, is ideal for distribution, sorting operations or in a production environment.
- Maximum lift capacity 1000 kg, maximum lift height 810 mm. Short truck length provides narrow turning radius.
- Supporting clamps in front of the rollers reduce the risk of tipping forward.
- Adjustable stabilizers automatically brake, to ensure safety and stability in operation.
- Quicklift-function as standard with automatic transfer to normal lift with loads over 250 kg.
- HHM100I and HHL100I are stainless steel alternative of this truck model.
- The HHL100PH with photocell gives a smooth and controlled movement as the High Lifter lowers and raises automatically when goods are loaded or unloaded from the pallet.
- This product has been environmentally declared.
